PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, production-grade web applications using React.js, Next.js, TypeScript, and Tailwind CSS, currently contributing to production interfaces and admin systems as a Frontend Developer Intern at Outcess Solutions. Built and shipped a complete e-commerce platform spanning a customer storefront and an admin back-office, plus a role-based attendance management system, reflecting end-to-end ownership from state management to API integration. Complements this with a multi-year background in networking and IT support (CCNA-certified), bringing a practical, troubleshooting-first approach to debugging and problem-solving. Currently completing a B.Tech in Telecommunications Engineering.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Responsive Design

State & Data: Zustand, TanStack React Query, REST API Integration

Tools: Git, GitHub, VS Code, Figma, npm

Networking & IT: LAN/WAN Setup, Cisco Networking, Technical Support, Network Troubleshooting

Core Strengths: Problem Solving, Team Collaboration, Adaptability, Communication, Time Management

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | *Outcess Solutions* May 2026 – Present

- Build and enhance responsive web interfaces using React.js and modern frontend practices for production web pages and admin panels.
- Resolve QA-reported issues through structured testing and debugging across desktop and mobile environments.
- Integrate frontend features with REST APIs, collaborating with the development team via Git and GitHub.
- Contribute to code maintenance and responsive optimization to ensure consistent performance across devices.

Technical Freelancer – IT & Security Services | *Self-employed* 2024 – Present

- Deliver networking, technical support, CCTV, and access-control solutions for clients, diagnosing and resolving hardware, software, and connectivity issues.

Network Administrator & Security Installer | *TechMax* 2023 – 2024

- Executed network deployments and diagnostics, resolving system-level issues across client environments.
- Installed and configured security systems for client sites.

Technical Officer | *FEMTECH IT* 2022 – 2023

- Resolved hardware and software issues for end users while supporting ongoing maintenance of network infrastructure.

SELECTED SOFTWARE PROJECTS

Fila Yoruba E-Commerce Platform | *Next.js, TypeScript, Tailwind CSS*

- Built a full-featured e-commerce platform for a premium Yoruba Fila brand, combining a responsive customer storefront with an integrated admin and back-office management system.
- Developed core commerce features including product/collection management, cart, wishlist, filtering, checkout, order management, inventory/stock tracking, and payment workflows.
- Designed administrative tools for managing products, orders, inventory, customers, and sales operations from a centralized dashboard, using Zustand and TanStack React Query for state and data management.

Attendance Management System | *React.js, JavaScript, Tailwind CSS*

- Developed a role-based attendance system with dedicated administrator, lecturer, and student experiences, incorporating responsive interfaces and application state management.

Additional React & JavaScript Projects | *Music player, memory card game, notepad app, weather app*

- Built a music player, memory card game, notepad application, and weather application, demonstrating component architecture, state management, and API integration across varied use cases.

EDUCATION

B.Tech. Telecommunications Engineering (In Progress)

Federal University of Technology, Minna | 400 Level | Expected Graduation: 2027

CERTIFICATIONS

- CCNA – Makintouch (2022)
- Diploma in Networking (Network+) – Femtech IT (2021)
- Diploma in Computer Engineering (CompTIA A+) – Femtech IT (2021)
