PROFESSIONAL SUMMARY

Frontend Developer and Telecommunications Engineering student with hands-on experience building responsive, production-oriented web applications using React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS. Currently a Frontend Developer Intern at Outcess Solutions, contributing to user interfaces, admin experiences, API-driven features, testing, and debugging. Experienced with e-commerce workflows, authentication, state management, REST API integration, Git-based collaboration, and practical networking/IT support.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Responsive Design

State & Data: Zustand, TanStack React Query, REST API Integration

Tools: Git, GitHub, VS Code, Figma, npm

Networking & IT: LAN/WAN Setup, Cisco Networking, Technical Support, Network Troubleshooting

Core Strengths: Problem Solving, Team Collaboration, Adaptability, Communication, Time Management

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | Outcess Solutions | May 2026 - Present

Develop and improve responsive web interfaces using React.js and modern frontend development practices.
Contribute to production web pages and admin interfaces, implementing UI enhancements and resolving QA-reported issues.
Integrate frontend features with REST APIs and collaborate with team members using Git and GitHub.
Participate in testing, debugging, code maintenance, and responsive optimization across desktop and mobile experiences.

Technical Freelancer - IT & Security Services | 2024 - Present

Deliver networking, technical support, CCTV, and access-control solutions and troubleshoot hardware, software, and connectivity issues.

Network Administrator & Security Installer - TechMax | 2023 - 2024

Executed network deployments, diagnostics, system troubleshooting, and security-system installations.

Technical Officer - FEMTECH IT | 2022 - 2023

Resolved hardware and software issues and supported the maintenance of network infrastructure.

SELECTED SOFTWARE PROJECTS

Fila Yoruba E-Commerce Platform | Next.js, TypeScript, Tailwind CSS

Built a full-featured e-commerce platform for a premium Yoruba Fila brand, combining a responsive customer storefront with an integrated admin and back-office management system.
Developed product and collection management, cart, wishlist, filtering, checkout, order management, inventory/stock tracking, payment workflows, and customer-facing shopping experiences.
Built administrative features for managing products, orders, inventory, customers, sales operations, and day-to-day store activities from a centralized dashboard. Used Zustand and TanStack React Query for state and data management.

Attendance Management System | React.js, JavaScript, Tailwind CSS

Developed a role-based attendance system with dedicated administrator, lecturer, and student experiences, responsive interfaces, and application state management.

Additional React & JavaScript Projects

Built a music player, memory card game, notepad application, and weather application demonstrating component architecture, state management, API integration, and responsive UI development.

EDUCATION

B.Tech. Telecommunications Engineering (In Progress)

Federal University of Technology, Minna | 400 Level | Expected Graduation: 2027

CERTIFICATIONS

CCNA - Makintouch (2022)

Diploma in Networking (Network+) - Femtech IT (2021)

Diploma in Computer Engineering (CompTIA A+) - Femtech IT (2021)
